

Fraction Worksheets

(Compare Fractions on the Number Line)

Directions: Place the 2 fractions on the number line. Circle the fraction with the distance closest to 0. Then compare using $>$, $<$, or $=$. The first problem is done for you.

Fraction Worksheets (Compare Fractions on the Number Line)

Directions: Place the 2 fractions on the number line. Circle the fraction with the distance closest to 0. Then compare using $>$, $<$, or $=$. The first problem is done for you.

1. $\frac{1}{4}$ $\left(< \right)$ $\frac{3}{4}$

2. $\frac{2}{6}$ $\left(< \right)$ $\frac{3}{6}$

3. $\frac{1}{2}$ $\left(> \right)$ $\frac{1}{4}$

4. $\frac{2}{3}$ $\left(> \right)$ $\frac{2}{6}$

5. $\frac{11}{8}$ $\left(< \right)$ $\frac{7}{4}$
