

## Data Representation Worksheets (First Grade)

Use the graph to answer the questions. Fill in the blank and write a number sentence.

1. How many more hot lunch orders than sandwich orders?  

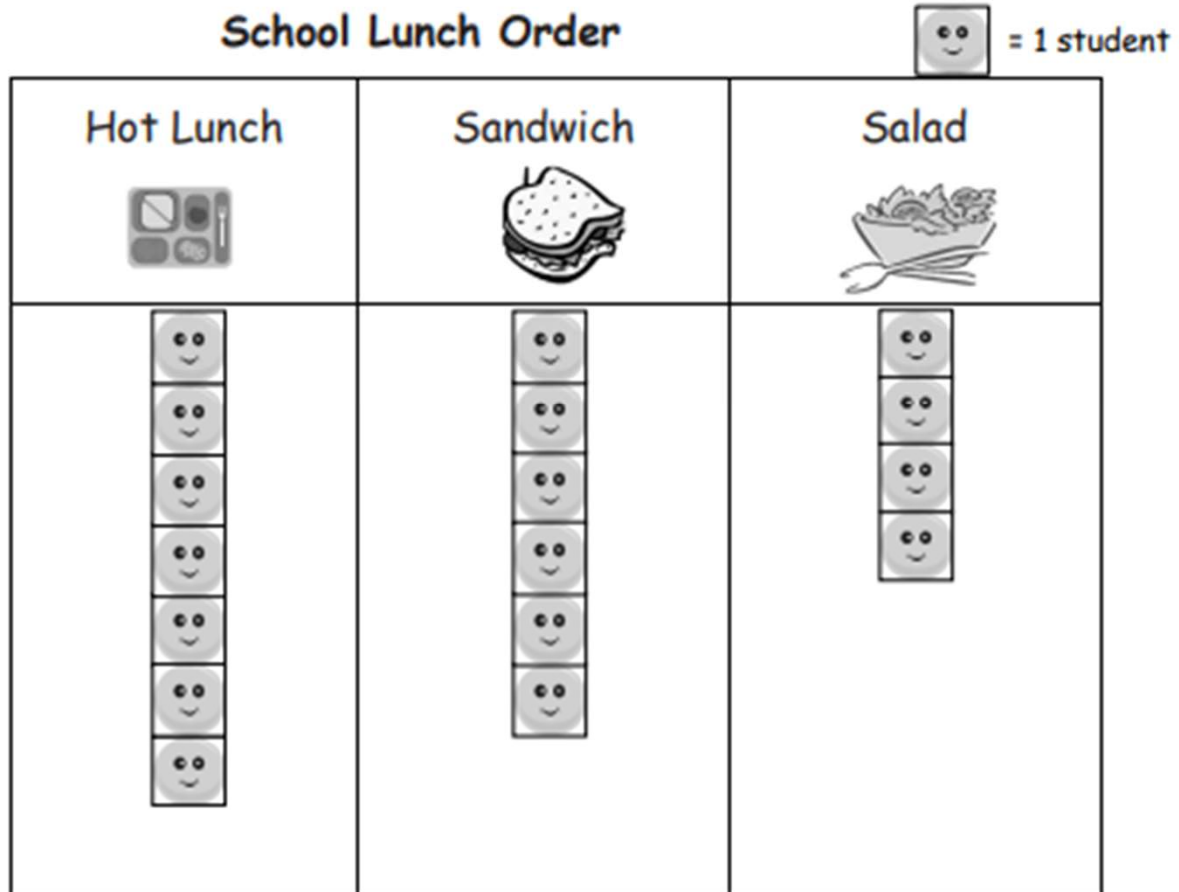

\_\_\_\_\_ more hot lunch orders
  
2. How many fewer salad orders than hot lunch orders?  

\_\_\_\_\_ fewer salad orders
  
3. If 5 more students order hot lunch, how many hot lunch orders will there be?  

\_\_\_\_\_ hot lunch orders

## Data Representation Worksheets (First Grade)

Use the graph to answer the questions. Fill in the blank and write a number sentence.

1. How many more hot lunch orders than sandwich orders?

$$7 - 6 = 1 \quad \underline{1} \text{ more hot lunch orders}$$

2. How many fewer salad orders than hot lunch orders?

$$7 - 4 = 3 \quad \underline{3} \text{ fewer salad orders}$$

3. If 5 more students order hot lunch, how many hot lunch orders will there be?

$$7 + 5 = 12 \quad \underline{12} \text{ hot lunch orders}$$
