Divide 2-digit by 1-digit

2-digit quotient with remainder

$2\overline{)73}$ $3\overline{)31}$ $2\overline{)61}$

$2\overline{)37}$ $4\overline{)73}$ $3\overline{)65}$

$2\overline{)47}$ $2\overline{)29}$ $2\overline{)41}$

Divide 2-digit by 1-digit

2-digit quotient with remainder

$$2\overline{)73} = 36 \text{ r } 1$$

$$3\overline{)31} = 10 \text{ r } 1$$

$$2\overline{)61} = 30 \text{ r } 1$$

$$2\overline{)37} = 18 \text{ r } 1$$

$$4\overline{)73} = 18 \text{ r } 1$$

$$3\overline{)65} = 21 \text{ r } 2$$

$$2\overline{)47} = 23 \text{ r } 1$$

$$2\overline{)29} = 14 \text{ r } 1$$

$$2\overline{)41} = 20 \text{ r } 1$$
