## Time Worksheets (Elapsed Time)

Solve.

- a. Tracy arrives at school at 7:30 a.m. She leaves school at 3:30 p.m. How long is Tracy at school?

$$7:30 \text{ a.m.} \xrightarrow{+5 \text{ hours}} 12:30 \text{ p.m.} \xrightarrow{+3 \text{ hours}} 3:30 \text{ p.m.}$$

$$5 + 3 = 8$$

Tracy is at school for 8 hours.

- b. Anna spent 3 hours at dance practice. She finished at 6:15 p.m. What time did she start?

$$6:15 \text{ p.m.} \xrightarrow{-3 \text{ hours}} 3:15 \text{ p.m.}$$

Anna started at 3:15 p.m.

- c. Andy finished baseball practice at 4:30 p.m. His practice was 2 hours long. What time did his baseball practice start?

$$4:30 \text{ p.m.} \xrightarrow{-2 \text{ hours}} 2:30 \text{ p.m.}$$

Baseball practice started at 2:30 p.m.

- d. Marcus took a road trip. He left on Monday at 7:00 a.m. and drove until 4:00 p.m. On Tuesday, Marcus drove from 6:00 a.m. to 3:30 p.m. How long did he drive on Monday and Tuesday?

$$\text{Monday } 7:00 \text{ a.m.} \xrightarrow{+5 \text{ hours}} 12:00 \text{ p.m.} \xrightarrow{+4 \text{ hours}} 4:00 \text{ p.m.} \quad \begin{array}{l} 5+4=9 \\ 9 \text{ hours} \end{array}$$

$$\text{Tuesday } 6:00 \text{ a.m.} \xrightarrow{+6 \text{ hours}} 12:00 \text{ p.m.} \xrightarrow{+3 \text{ hours}} 3:00 \text{ p.m.} \xrightarrow{+30 \text{ minutes}} 3:30 \text{ p.m.}$$

$$9 \text{ hours} + 9 \text{ hours} + 30 \text{ minutes} = 18 \text{ hours } 30 \text{ minutes}$$

Marcus drove 18 hours 30 minutes.

$$\begin{array}{l} 6+3=9 \\ 9 \text{ hours } 30 \text{ minutes} \end{array}$$
