

## Line Plot Worksheets

2. The chart shows the length of paper second-grade students used in their art projects.

Length of Paper	Number of Students
3 ft	2
4 ft	11
5 ft	9
6 ft	6

Title \_\_\_\_\_

Line Plot

- a. How many art projects were made? \_\_\_\_\_
- b. What paper length occurred most often? \_\_\_\_\_
- c. If 8 more students used 5 feet of paper and 6 more students used 6 feet of paper, how would it change how the line plot looks?

---

---

- d. Draw a conclusion about the data in the line plot.

## Line Plot Worksheets

The chart shows the length of paper second-grade students used in their art projects.

Length of Paper	Number of Students
3 ft	2
4 ft	11
5 ft	9
6 ft	6

- a. How many art projects were made? 28
- b. What paper length occurred most often? 4 feet
- c. If 8 more students used 5 feet of paper and 6 more students used 6 feet of paper, how would it change how the line plot looks?

Then 5 feet would be the tallest on the line plot and 6 feet would be the second tallest.

- d. Draw a conclusion about the data in the line plot.

More students used a 4-foot length of paper than the other lengths.
