

Make 100 Addition Strategy

Add by drawing a number bond to make a hundred.
Write the simplified equation and solve

$$440 + 280$$

$$\underline{\hspace{2cm}} = \underline{\hspace{2cm}}$$

$$199 + 86$$

$$\underline{\hspace{2cm}} = \underline{\hspace{2cm}}$$

$$298 + 57$$

$$\underline{\hspace{2cm}} = \underline{\hspace{2cm}}$$

$$425 + 397$$

$$\underline{\hspace{2cm}} = \underline{\hspace{2cm}}$$

Make 100 Addition Strategy

Add by drawing a number bond to make a hundred.
Write the simplified equation and solve

$$440 + 280$$

60 \wedge 220

$$\underline{500 + 220} = \underline{720}$$

$$199 + 86$$

1 \wedge 85

$$\underline{200 + 85} = \underline{285}$$

$$298 + 57$$

2 \wedge 55

$$\underline{300 + 55} = \underline{355}$$

$$425 + 397$$

122 \wedge 3

$$\underline{422 + 400} = \underline{822}$$
